aquatic

DeWitt aquatic and pond products are designed to reinforce and support projects large or small for both residential and commercial applications. These products protect delicate environments and provide stable lasting foundations for pond and water features.

Down to earth protection. Down to earth results.

Deluxe Pond Netting & Pond Netting

DeWitt Deluxe Pond Netting is a sturdy, safe material to install over ponds to prevent leaves and other debris from entering the pond environment, while protecting fish and other pond life from predators. It is constructed of polyethylene with 1/4 inch hole opening. The strands are bonded together and UV-treated for longer life. Deluxe Pond Netting allows sunlight, air and moisture which helps maintain the proper biological balance for all pond life. It is easy to use and install. Regular Pond Netting is also available. It is constructed of polypropylene strands and has a 3/4" inch hole opening.

Pond Underliner

DeWitt Pond Underliner is a durable, clean, and safe material to install under ponds instead of using cardboard, newspapers, sand or old carpet padding. DeWitt Pond Underliners are constructed of nonwoven needle punched fabrics in various weights. Use of this material under your liner will help protect the inner wall from punctures from stones and cushion the pond wall for fish, while allowing gases to escape to maintain the proper biological balance for all pond life. It is easy to use, and installs in minutes.

Benefits

- Protects fish and water life from predators
- Keeps leaves and harmful debris out of pond
- Made of durable, UV-treated polypropylene and UV-treated polyethylene
- Allows sunlight, moisture and ventilation
- Safely keeps children and pets out
- Helps extend the life of the pond

DeWitt Pond Underliner

Benefits

- Helps prevent holes and leaks in liner
- Provides a stable, lasting foundation
- Can be used in any type of pond
- Environmentally safe
- Virtually indestructible
- Helps extend the life of the pond

Firestone PondGard™

Rubber Pond Liners

The Professional's Choice

Landscapers and other pond building professionals have long recognized PondGard Rubber Liners for their unmatched ease of installation and their ability to conform to the shelves needed for creating natural looking water falls and holding plant containers. Along with being the professionals' lining system of choice, homeowners have also come to value the aesthetic and practical benefits that PondGard liners bring to their outdoor living spaces.

Easy To Install

With panels available in a variety of sizes and lengths, PondGard Rubber Liners can be easily installed using Firestone's dependable QuickSeam™ Tape system; which requires no special tools or utilities for installation.

Flexible For Creative Designs

Easily shaped to fit the size and contours of any water feature, the flexibility of PondGard liners means more creative freedom and the ability to accomplish even the most challenging designs.

Environmentally Friendly

Specially formulated for water gardening projects, PondGard liners are safe for fish and plant life.

Easy Maintenance

PondGard Rubber Liners require virtually no maintenance after installation. And in the unlikely event of a puncture, the liner can be quickly repaired on-site with a self-adhesive QuickSeam Joint Cover Patch, minimizing cost and inconvenience.

Lasting Beauty

PondGard liners display outstanding resistance to UV exposure, ozone, frost, snow and extreme temperatures. Developed to protect against microbial attacks and algae growth, our liners contain no migrating plasticizers – which means no cracking or splitting.
