landscape fabric

DeWitt landscaping products and plant fabrics are the number one choice of professionals in the lawn and garden industry. DeWitt's high-performance quality products save time and are environmentally safe for the responsible homeowner.

Down to earth protection. Down to earth results.

Non Woven Landscape Fabrics

DeWitt Weed-Barrier® 3 Yr.

DeWitt Weed-Barrier® 3 Year is an entry-level garden fabric used to suppress weed growth without the use of chemicals. Allows air, water and nutrients to pass through. It conserves soil moisture and promotes plant growth. Short term control for annual plantings.

DeWitt Weed-Barrier® 6 Yr.

DeWitt Weed-Barrier® 6 Year is a cut above the competition's upper entry-level products. Ideal for short-term weed control for annual plantings, this polypropylene product consists of laminated spunbond fabric for added strength and extra light blockage.

DeWitt Weed-Barrier® 12 Yr.

DeWitt Weed-Barrier® 12 Year is an easy-to-use, environmentally safe fabric that controls weeds before they start. Its unique design provides several advantages over conventional weed barrier products.

It is fabricated using a spunbond method, which sandwiches melt-blown material between two layers of spun material, forming a powerful 3-ply layer of weed protection. Plus, the fabric's higher carbon black content provides superior light-blocking capabilities to protect against the toughest perennial weeds. The design also prevents unraveling and makes the material easier to cut. In addition, DeWitt Weed-Barrier® 12 Year is hydrophilic-treated, providing improved water and nutrient flow through the fabric.

DeWitt Weed-Barrier® 12 Year Earthtone

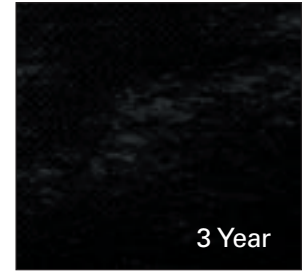

DeWitt Weed-Barrier® 12 Year Earthtone is a two-color, UV-treated, spunbonded fabric, which offers the same benefits as DeWitt Weed-Barrier® 12 Year. However, the fabric has an earth-tone colored layer giving it a natural look – versus traditional black fabric – which makes it ideal for use with bark or mulch. This one-of-a-kind fabric is only available through DeWitt Company.

Recommended Product Usage: These fabrics need to be covered with mulch or rocks to prevent UV degradation.

DeWitt Weed-Barrier® **pro**

PROFESSIONAL GRADE
LANDSCAPE FABRIC

DeWitt Weed-Barrier® PRO

Designed specifically for professional landscapers, contractors and garden centers, DeWitt Weed-Barrier® Pro is available in black, white and brown. There's a color to fit every mulch or stone application. Specifically made as a landscape and garden fabric, DeWitt Weed-Barrier® Pro is UV and hydrophilic treated for water permeability.

DeWitt Weed-Barrier® Pro:

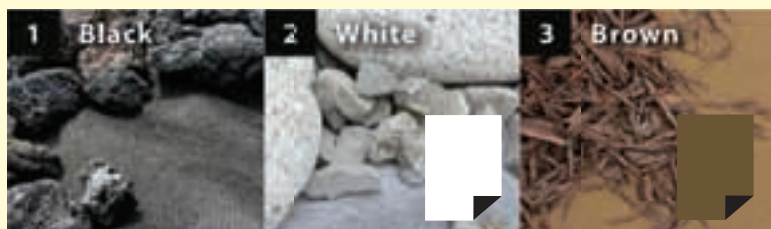

- Saves big on watering by conserving the soil's moisture
- Provides complete weed control
- Only fabric that is hydrophilic treated – letting air, water and nutrients through
- Fabric is black on the back side for the ultimate in light blockage
- Is EASY to cut and install
- Uses multiple-layer technology

Guaranteed 100% by DeWitt — NO WEEDS!

Environmentally friendly – controls weeds without chemicals

“DeWitt Weed-Barrier® Pro is my number one choice for weed control. It's what I use in my own lawn and garden.”

— Larry DeWitt

Now offering professionals three colors of weed control.

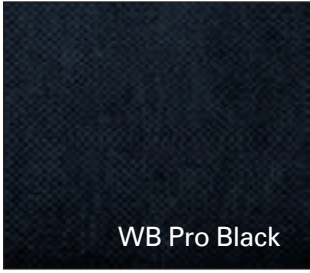

Black • White • Brown

Fabric is black on the back side for the ultimate in light blockage.

Roc-Kloth White

BENEFITS

- Helps stabilize the soil.
- Stops weeds from coming through cracks.
- Keeps ants and other insects from movings and soil underneath hardscapes.
- Only fabric that is hydrophilic treated – letting air, water and nutrients through.
- Excellent for use in rock gardens.

Woven Landscape Fabrics

DeWitt Weed-Barrier® 15 Yr.

DeWitt Weed-Barrier® 15 Year was developed as a high grade 2.2 oz. woven polypropylene fabric for the cost-conscious consumer who still wants professional quality.

DeWitt Weed-Barrier® 15 Year is permeable, UV treated and is striped every 12 inches for plant alignment. Increased Light Blockage: The innovative weaving technology provides total weed control without the use of harmful herbicides. The lighter weight makes it easier to install, saving you time and labor cost. Plus lower freight costs improve your bottom line.

DeWitt Weed-Barrier® 20 Yr.

The original DeWitt Weed-Barrier® 20 Year is the best in the industry for cost-conscious professional and commercial installations. It is also ideal for retail con-

sumers who demand professional quality products. Our DeWitt Weed-Barrier® 20 Year is a 4.1 oz., woven polypropylene, needle-punched fabric with reinforced fiber for extra moisture control and helps the fabric stay put on sloped areas. Colored stripes located 12 inches apart make for easy planting.

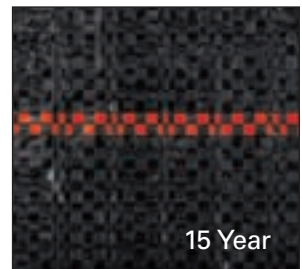

Pro-5 Weed-Barrier®

Pro-5 Weed-Barrier® is the industry's best 5 oz. woven, needle-punched, polypropylene fabric designed for professional and commercial use. Pro-5 Weed-Barrier® has been approved by leading landscape architects and most government agencies.

Pro-5 conserves soil moisture, increases growth, and prevents unwanted weeds from germinating. Twelve-inch spaced lines make for easy plant alignment.

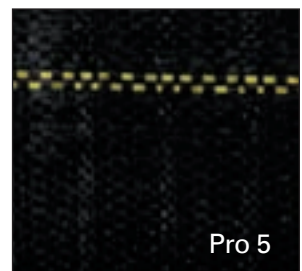

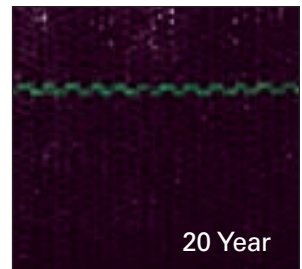

15 Year WEED-BARRIER (2.2 oz.)
